E-Learning provider. Helsinki, Finland.

NBCPMA

Master's Biotech engineer

1998 - 2003

Moscow, Russian Federation.

LANGUAGES

Russian: Native

English: Intermediate

HOBBIES

For me, sports and music go closely with programming, both of those fields help to stay creative and attentive. So, in my spare time, I do sport and play guitar! Also, as an active person, I like long walks in nature.

EXPERIENCE

My Pet Projects:

Social Net project (SPA) React

GitHub: <https://github.com/DenisLoza/SocialXXI>

The layout of the project was implemented by me without the use of templates.

I implemented demo limited functionality of the main page of the user and the messages page.

Design similar to VKontakte.

Implemented functionality:

- * Posting a message on the home page;
- * Jumping by category "Friends - Main";
- * Sending a private message to a friend;

ToDoList project (SPA) React

GitHub: <https://github.com/DenisLoza/ToDoListXXI>

I implemented the following features:

- * Adding a new list and new tasks to the list;
- * Marking completed tasks;
- * Deleting tasks and task lists;
- * Switching between cases (active, completed and deleted) lists;
- * Renaming tasks & lists (editable span).

Media content production's - Entrepreneur

Jul 2013 - Sep 2022, St.Petersburg, Russia

I was in charge of pre-production (professional photo and video shooting) and post-production (processing and editing of media content).

More than 500 satisfied customers!

- I got a good Business-to-Consumer experience;
- built long-term and trusting relationships with more than 100 clients;
- I have developed the ability to achieve excellent results.

Technical Director - Single settlement center

May 2010 - Mar 2013, Yekaterinburg, Russia

Information technology, system integration, cash management services.

I was engaged in administration and service control of special software and hardware (Linux).

- installed and expanded the network of payment terminals from 0 to 200;
 - integrated a network of terminals in 7 cities;
 - due to the stable operation of the payment network and reached 20,000 transactions per day.
- Working in the company has significantly increased performance on the highest technical equipment and development rates to a large regional network.
